

ALARD CHARITABLE TRUST'S
ALARD COLLEGE OF ENGINEERING AND MANAGEMENT

Shri Ramasevak Yadav Scholarship

Introduction:

Parents contribute the biggest piece of the financial aid pie in supporting students. Parents were also key players in helping with costs outside of college. Making that transition to (or back to) college, though, means parents and students are both keyed into the same reality: that the cost of higher ed is often more than what they can afford. These realities have forced families to be creative about their payment options; for example, an increasing number of students work while attending college. But they also mean that family circumstances, economic recovery and other factors squeeze students' ability to pay for their education, even as they try to focus on their studies.

Every student's story is different, but the financial gap in paying for college is still apparent. By providing sufficient scholarship assistance, we can enable greater success in college, providing backing for deserving students who want to graduate with their degree and give back to society.

Along with this, the **COVID-19 recession** is a major ongoing global economic crisis which has caused both a recession and depression. It is currently the worst global economic crisis. This recession has seen unusually high and rapid increases in unemployment. Lots of people lost their job and many were unable to work because of lockdown.

Based on above regards, ALARD Charitable Trust (ACT) have decided to provide scholarship to deserving students. Students hailing from COVID-19 virus affected families and financially weak families will be offered upto 100% scholarship
